Board/Commission Application

Important Notice:

The City Council may consider appointments to boards and commissions in executive sessions which are closed to the public, and then make the appointments in a public meeting. You have the right, however, to have your application considered in a public meeting by providing a written request to the City Clerk.

Application to Serve on a Board/Commission

Please note that this information is a public record.

Date:* 03/28/2013
Board/Commission you wish to serve on:* Sustainability
If applicable, type of seat for which you are qualified:

Your Information

Name:*	Dominique Bain	Home Phone:*	314-910-7526
Home Address:*	2627 N. Rose #3	Zip:*	86004
Mailing Address (If different from above):			
Employer:*	National Science Foundation	Job Title:*	GK-12 Fellow

E-mail:*	dmg269@nau.edu		
Indicate preferred telephone:*	(X) Home () Work	() Cell	

Background Information

Please explain how your community activities and other relevant experience/interests are applicable to this board or commission.

I am finishing my Master's degree at Northern Arizona University (NAU) in Environmental Sciences and Policy. During my time at NAU, I have worked to learn about and promote clean energy and environmental sustainability. I have focused my classes on those topics. I am a part of the Energy Mentors at NAU - promoting energy efficiency. As a GK-12 fellow, I work with local students on a regular basis and we often structure our lessons around clean energy and sustainability.

Why do you want to serve on the board or commission you listed?

I want to become more involved in Flagstaff. My husband and I have lived here for about a year and a half and we love the city and surrounding areas. Cultivating sustainable practices around energy use and climate change are imperative to a community's ability to thrive by helping to maximum the efficiency of community resources and enabling the community to adapt to a changing world. I want to be a part of creating those sustainable practices in Flagstaff. The community here is vibrant, intellectual, and connected. While I have seen these in many ways in Flagstaff, one of the best examples was the crowd at William deBuys's lecture at the Orpheum this fall. The theater was packed. Clearly, the community of Flagstaff is concerned about climate change and its potential impacts. When deBuys discussed the unique opportunity Flagstaff has to be a leader because of its location and the risk of drought here, the crowd cheered. They know Flagstaff is a special place and they want the community here to continue to thrive, but they also understand there will be challenges in the future.

By submitting this electronic form, I acknowledge that any information provided above is a public record, and I certify that I meet the City Charter requirement of living within the Flagstaff City limits and have read and understand the right to have my application considered in a public meeting.

Indicate preferred telephone:*	<input type="radio"/> Home <input type="radio"/> Work	<input checked="" type="radio"/> Cell	

Background Information

Please explain how your community activities and other relevant experience/interests are applicable to this board or commission.

Currently, I am a senior in the Environmental Science-Policy and Administration major at NAU. I believe that in order to protect the environment, all citizens must work together to change their consumption behaviors. I was an intern for the Coconino County Sustainable Building Program. I performed a project assessment on past buildings certified through the program by conducting face-to-face interviews with homeowners, as well as analyzing and evaluating data and comparing the data to AZ and U.S. averages. The goal of the assessment was to determine energy and water savings, in addition to providing the community with an idea of what types of systems and actions are the most efficient. Therefore, I believe I have the educational, as well as real-world experience to be part of the Sustainability Commission.

Why do you want to serve on the board or commission you listed?

I want to serve on the board to both expand my knowledge and experience with implementing real-world sustainability practices, in addition to providing the community with the knowledge that I have gained from my experiences in the class room and my internship.

By submitting this electronic form, I acknowledge that any information provided above is a public record, and I certify that I meet the City Charter requirement of living within the Flagstaff City limits and have read and understand the right to have my application considered in a public meeting.

Background Information

Please explain how your community activities and other relevant experience/interests are applicable to this board or commission.

I am an active member of the Greater Flagstaff Forest Partnership and am always looking for opportunities to help with the environment and community. I am rather new to the Flagstaff area and eager to get involved.

Why do you want to serve on the board or commission you listed?

I am very concerned about sustainability and conservation efforts and want to help in any way I can. I have a degree in Animal Science and Agribusiness MGMT from Purdue University which focused a lot on agricultural sustainability.

By submitting this electronic form, I acknowledge that any information provided above is a public record, and I certify that I meet the City Charter requirement of living within the Flagstaff City limits and have read and understand the right to have my application considered in a public meeting.

PLEASE INDICATE PREFERRED TELEPHONE: HOME WORK ☒ CELL

BACKGROUND INFORMATION: Please explain how your community activities and other relevant experience/interests are applicable to this board or commission.

I have served on the City of Flagstaff Bicycle Advisory Committee since 2007.

My education and job experience is with science, in particular geology (Bachelors and Master of Science), botany (PhD studying regional ponderosa response to climate over the last 5,000 years), water (10 years working part time for the U.S. Geological Survey Water Resources Division) and most recently the statistical analysis of ecosystems for the National Park Service. All of these have given me a strong appreciation for western landscapes, the importance of water resources, and the ability of ecosystems and populations to function within limits.

Why do you want to serve on the board or commission you listed? (Attach additional page if needed.)

There are many positive things that this city already has accomplished and is capable of accomplishing to better the quality of life for those who live here and visit here. Many of these have come about through cooperation between interested citizens and city staffers and officials, and I would like to be a part of that process. I believe we can make great improvements as a team, and I think the city's sustainability and water commissions offer the best opportunities within the city to plan for the future.

I understand that any information provided above is a public record and I certify that I meet the City Charter requirement of living within the Flagstaff City limits and have read and understand the right to have my application considered in a public meeting.

Applicant Signature

The City of Flagstaff is an Equal Opportunity/Affirmative Action Employer.

PLEASE INDICATE PREFERRED TELEPHONE: ☒ HOME ☐ WORK ☐ CELL

BACKGROUND INFORMATION: Please explain how your community activities and other relevant experience/interests are applicable to this board or commission.

I have been actively involved in my local community for over 25 years. With a Master's degree in geography/land use I worked as a city planner and then as a consultant for 12 years (1982-1993 in Prescott). For the next 20 years, I taught college geography at Yavapai College (including land use, cultural, lab science, environmental courses), while serving in many local organizations. From 2008-2010, I lived in Oregon and California, teaching geography, travelling and also serving on a planning and zoning commission. I returned to Arizona in late 2010 to teach, guide tours, get married and live in Flagstaff - a place I've always loved, and where I hope to contribute my time, energy and passion.

Why do you want to serve on the board or commission you listed? (Attach additional page if needed.)

I believe that the way to maintain a beautiful, viable and vibrant community is to become involved in a meaningful way. My experience in designing open space/regional plans, public lands acquisition, authoring environmental plans and impact reports, as well as working with governments at all levels, have given me a unique set of experience and education that can make a meaningful contribution. A more flexible professional schedule now allows me to serve on a commission and commit myself to it. As an educator, active environmentalist, tour guide, and lover of Flagstaff, I hope to be part of a working commission and make a difference. My outer life reflects my inner values and principles - being an authentic and active steward of the environment (physically and culturally) and community are integral to who I am. Thank you!

I understand that any information provided above is a public record and I certify that I meet the City Charter requirement of living within the Flagstaff City limits and have read and understand the right to have my application considered in a public meeting.
